

## Lingkungan - Environment Activity Sheet 1

Text type: (activity/instruction sheet)

Settings: This activity sheet accompanies *Polusi dan Limbah* video

Support Substrand(s): ([ACLINC103](#), [ACLINC106](#))

Achievement standard: Students use varieties of *me-* (prefix), students interact with peers and adults using written and spoken Indonesian to communicate about personal interests and relationships, practices and experiences, and about broader issues such as health and the environment, including as these relate to Indonesia.

## Task 1

Class discussion:

- Look at these signs below. Have you ever seen similar ones? Where did you see it?

Pair work:

- Complete the signs with the appropriate Indonesian words from the *Kosa kata* list below. You might need to create phrases from the *Kata kerja* (verb) and *Kata benda* (noun) lists.
- Compare your translation with your classmate and have your teacher check your work.

**DILARANG MEROKOK**

**DILARANG.....**

DILARANG.....

DILARANG.....

DILARANG.....

DILARANG.....

## KOSA KATA

### Kata kerja

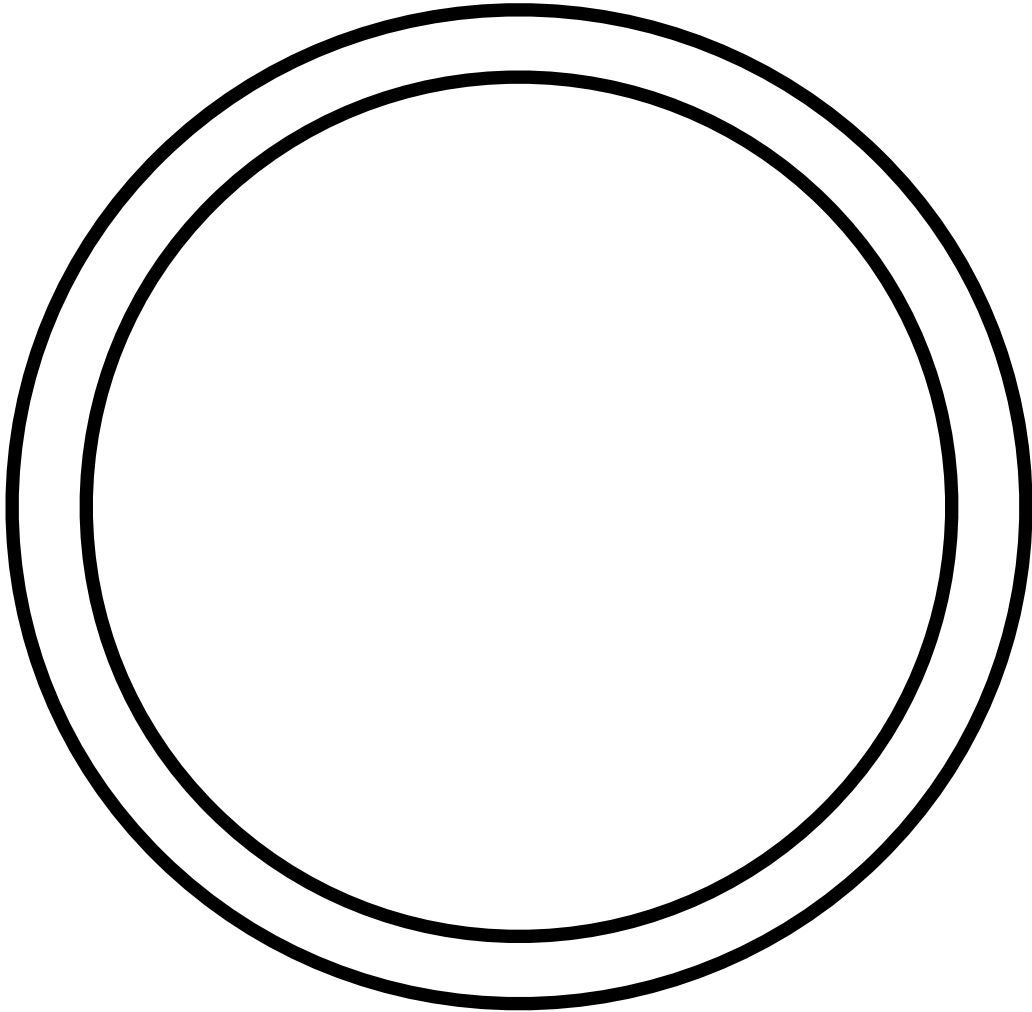

<i>merokok</i>	- smoking
<i>menginjak</i>	- stepping on
<i>menebang</i>	- cutting down
<i>membawa</i>	- bring
<i>berenang</i>	- swimming
<i>membuang</i>	- drop / litter

### Kata benda

<i>binatang peliharaan</i>	- pets
<i>rumput</i>	- grass
<i>pohon</i>	- tree
<i>sampah</i>	- rubbish

## Task 2

- Create a sign of your choice, including the Indonesian wording.

### Task 3

Table 1 lists the environmental issues *Polusi udara* (Air pollution), *Pencemaran air* (Water contamination) and *Limbah & sampah* (Waste and rubbish) discussed in the *Polusi and Limbah* video. The phrases in Table 2 are causes and consequences of the environmental issues mentioned in the video.

- Re-watch the *Polusi and Limbah* video.
- In Table 1, list the causes and consequences from Table 2 in their relevant columns.

Table 1

<b>Polusi udara</b>	<b>Pencemaran air</b>	<b>Limbah &amp; sampah</b>

Table 2

Kadar oksigen di air berkurang	Letusan gunung berapi
Pertambangan	Sampah dibakar
Terlalu banyak kendaraan bermotor tanah	Sampah ditimbun di dalam
Sampah plastik mengotori laut kendaraan	Pembuangan gas
Membuang sampah sembarangan	Pencemaran dari industri
Pembakaran sampah	Air sungai dan danau kotor
Pembuangan sampah rumah tangga	Pertanian
